

INFLITE MRO SERVICES

Job Title: Level 2 NDT Technician

Department: NDT Workshop

Hours: 0800 hours – 1630 hours Monday to Friday

Reports To: General Manager

Location: Haney Smith Harlow and Inflite MRO Services Southend (50/50 split)

Job Purpose:

To perform Non-Destructive Testing (NDT) in compliance with legislative and customer-specific requirements, ensuring high standards of safety and quality in inspections.

Main Responsibilities and Duties:

LEVEL 2 INSPECTORS

- **Supervision:** Oversee daily operations in the NDT inspection area(s) assigned, ensuring adherence to safety and quality standards.
 - **Equipment Management:** Set up NDT equipment and conduct in-service control checks to ensure operational readiness.
 - **Inspection Execution:** Carry out NDT inspections on newly manufactured and in-service components across a variety of products, ensuring compliance with applicable regulations.
 - **Regulatory Compliance:** Strictly follow all relevant regulatory agency, customer, and company policies, procedures, and processes during inspections.
 - **Safety Focus:** Execute tasks professionally with a strong emphasis on the safety of both products and personnel.
 - **Result Interpretation:** Interpret and evaluate inspection results against established customer specifications, procedures, and codes.
 - **Technique Development:** Develop and document inspection techniques that meet customer requirements and adhere to relevant codes.
 - **Record Keeping:** Maintain accurate technical records of NDT inspections and related activities, including references to the technical data used.
 - **Training:** Train and mentor Level 1 trainees under the supervision of the responsible Level 3 technician, promoting a culture of professionalism and precision.
 - **Additional Duties:** Undertake other related responsibilities as assigned by management.
-

Experience and Skills Required:

- **Certification:** Candidates must hold EN4179 certification.
 - **Regulatory Knowledge:** Basic understanding of EASA, CAA, and FAA requirements is desirable
-

Qualifications:

- Level 2 qualification in Magnetic Particle and Fluid Penetrant Inspection methods
-
